<b>Description</b>	The American Sleep and Breathing Academy LLC is an established online educational institution for sleep disorders. The company's modules are designed to meet the standards set forth by the BRPT's new STAR program to expedite a student's ability to become certified.	The school offers the A-STEP accredited training in sleep technology for new sleep technologists. The school also offers training in sleep medicine for nurse practitioners, physician assistants, and allied health care providers.	The 6th annual BRPT Symposium, taking place in Reno, Nev, September 20-22, 2012, is an exceptional conference designed exclusively for Registered Polysomnographic Technologists (RPSGTs), many of whom are also accomplished neurodiagnostic and respiratory professionals, along with leading vendors in sleep technology.	Updates, taking place November 2-3, 2012, at the Four Seasons in St Louis, is the leading independent symposium on trends and treatments in sleep medicine. Clinicians and researchers present findings, explore advances, and examine ideas about the science of sleep. CME available.	This online forum for CPAP users provides knowledge, advice, and support. Read threads about fixing CPAP problems and success stories, or come by to make friends and get a good laugh.
<b>Benefits</b>	Students can choose from an extensive selection of modules to test for their CPSGT or RPSGT exam. Modules used for the CPSGT count toward the RPSGT requirements. The company's Web site has been revised to enhance the students' ability to learn and complete the modules at their pace and convenience.	Sleep techs can take advantage of the new BRPT STAR program by completing the Online Foundation of Sleep Technology course, attending the Essentials of Sleep Technology course, practicing their skills with on-demand webinars, and reviewing for the BRPT exam with Online Technologist Registry Review.	Networking with your professional peers, investigating new equipment and products from an outstanding group of vendors, learning more about the development of the BRPT exams and how you can become more involved with BRPT activities, continuing education credits, attending the Clinical Sleep Educator Program on September 20.	Updates combines dynamic thinking with an informal and relaxed atmosphere. It is an opportunity to learn from leading professionals in sleep medicine about the latest developments in the field. Updates intends to offer up to 11 CEUs for doctors, nurses, RTs, and sleep techs attending the 2012 conference, pending final plans and confirmation of faculty.	The forum is available 24/7, allowing patients to log in at any hour. Those working in the industry are encouraged to visit the professionals tab to request complimentary materials for their patients.
